The Sugar-Coated Pills,

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREMATURE DECAY which exposes the human frame to the direction and violence of every class of disorders proceeds directly or indirectly from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and the proprietor's establishment No 323 Broadway N York—Price 25 cents a single box 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name, are none perhaps which have acquired the great celebrity and extensive use in so short a time as this invaluable article—They have gained the high reputation, alone by their good works Those who once try them always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system giving it greater vitality and animation The experience of thousands attest to the good effects After using them for a short time the hitherto wretched invalid finds that all agreeable and an healthy humors have forsaken his system. His digestive organ performs their proper functions his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest, yet most effectual preparation of the class in use

In BILIOUS complaints Costiveness, Indigestion, Dyspepsia, and all other disorders of the stomach they produce the most happy results For Sores Boils Salt Rheum Tetter, Erysipelas, Eruptions of the Skin Scrofulous complaints and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boxes of Sarsaparilla, contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat Headache Giddiness &c, they are recommended with entire confidence The relief is speedy the cures is quick and permanent For Fever and Ague Fevers Asthma, Piles, Loss of Appetite, Dropsy, Jaundice Worms, Looseness General Debility, and many of the various other diseases to which the human system is liable they have proved an invaluable remedy Their action on the bowels is of the mildest character even *one dose* never fails to purge in unpleasantness yet they are searching and efficient It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class A trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them, will with joy for the unexampled change wrought in his health bear testimony to their uncommon virtues

N B The coating of *sugar* adds to them the great virtues of the Magic Life Pills, it is their uncommon power in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor has made this a valuable improvement to preserve their curative virtues effectual as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by the use of them and thus abusing through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

RUST PROOF IRON,
FOR
ROOFING, WINDOW SHUTTERS &c

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES one to the many advantages which they possess over all metallic and other substances hitherto used for this purpose possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc &c, or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metal to the many other purposes to which Iron thus protected can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper and possessing equal durability with that metal

Having lately erected works at this city for the purpose of galvanizing Nails Spikes Bolts Wire &c they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe) constantly on hand from 16 to 32 wire gauge GEO B MOREWOOD & CO

Nos 14 and 16 Beaver st, New York

FOSTER'S
MOUNTAIN COMPOUND!
FOR THE HAIR.

IS AN ARTICLE IN WHICH THE PUBLIC MAY REACH THE UTMOST CONFIDENCE

THE MOUNTAIN COMPOUND

is entirely different from any thing ever before introduced It contains several important medicinal qualities which no other article of the kind does, and will make it dead to offenders whether as a restorative or for removing DANDRUFF, ERUPTIONS, or DISEASES from the skin of the head

Its peculiar tonic and lasting qualities give great beauty and richness to the texture of the hair, and its fine and gentle action of Boston Pulmonic Lozenges, and other places, it will be found to a very great extent, to its admirable adaptation for dressing ornamenting and keeping the HAIR MOIST A GREAT LENGTH OF TIME—longer, much longer than any thing else can and no substance is left to soil any fabric however delicate

Every dissatisfied one who has bought or purchase of this Compound speaks well of it, and say severe more, and the proprietor feels confident to recommend it from that fact

☞ For testimony see small pamphlets

CAUTION.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, particularly when the growth has been confined to the upper lip and side of the face giving a masculine turn to the whole features When used with proper care, and according to the directions it will be found to be a great addition to the toilet as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application

This composition is infallible and warranted not to remove the flesh but After numerous trials I have received testimonials of success which cannot be contested

Letter from Saltillo—Incident—A Battle Field.

Correspondence of the N O Delta

Saltillo, March 2nd 1847

In a letter which I wrote a few days since, I gave you a very full account of the sanguinary affair of Buena Vista, [pronounced *Vane Esta*] and will now give you a few scenes which I have witnessed not mentioned in that letter

The first view that we caught of the enemy was when they had turned the left flank of our lines and were pursuing the Flying Infantry and Hennessy Cobb on after column succeeded, until they formed a dense mass, numbering something like twelve thousand men No words can convey to you even a faint idea of their imposing appearance Their arms and bridles burnished, reflected a million times the dazzling rays of the sun—the French and Lancaster guns stood out in bold relief against the splendid tattered garments of the Rancheros Volunteers—their Cavalry (Lancers) drawn up in battle style, in numbers from two to three thousand, and I tell you the beauty of such the most accurate military observer could have found no fault with, and, added to this that they were, for the time victors, I assure you we did not look upon them with complete sight — But when the quick, sharp gun, of our rifles sounded the death knell of scores after scores of them, three hearty Mississippi cheers told full well that no cowardly fear paralyzed that little band Nothing on our small force would have scattered the retreating foe in all directions over the dead strewn field, had not our wishful leader, Col Davis, perceived that we were about to be surrounded by an overpowering force, and ordered us to retire orderly

Here an amusing circumstance took place — Maj B died—who is probably the most impetuously brave officer who ever drew a sword—received a slight wound and thought we were defeated He dismounted from his horse and followed or slowly after the retreating ranks—"*Shoot me! Shoot me!*" Some one called out—

"What the deuce is the matter, Major?"

"*Ah, kill me! The Mississippi Rifles are thus run and I don't want to live another minute!*"

But the gallant Major was quickly undeceived for we soon rallied and although our ranks were terribly thinned by the killed and wounded we again marched the deep roll of the Long Roll *Forward! Guide Centre March!* The command was repeated by fifty voices, and with more steadiness and precision than the careless fellows were ever known to execute on a drill. They return dirty the bloody contest, but it is their intents to repeat what they already written

* * * * *

At one time during the fight, we returned over the ground on which was made our first charge We there saw among the many dead, our fallen comrades, and although intimated by the excitement of the fierce contest which was just then to be renewed, yet I think there was not a heart among us who did not sigh and men cease to utter a groan beholding that horrible scene But for his straw hat, and a few other articles of clothing which the ruffians had off on him, I should have failed to recognize the body of young Eg Easton He was shot stabbed and otherwise abused This was, indeed, the fate of all whom I saw Lieut Moore and man named Couch of our Company, were the only persons whose bodies I closely recognized

After the battle I hodgeover the whole field Parties were engaged in burying the dead—but there were still hundreds of bodies lying stiff and cold, with no covering save the very remnant of clothing which the robbers of the dead found too valueless to take from them I saw the human body pierced in every place I saw expressed on the faces of the dead a most every passion and feeling Some seemed to have died cursing their enemies, and cursing them with their last breath—others had the most placid and resigned expression and feeling Some seemed to have died defending their very brave to the last, while other evidently blessed their last words in supplicating for mercy Here we found and mature age calmly reposing in untimely death

Passing off from this part of the bloody ground, I went over to the plain literally covered with the dead bodies of those who had so recently be n our foes The scene was frightful enough, God knows—but was divested of some of its horrors by the fact that not one of the Mexicans who died was either robbed or stripped of his clothing nor was there the least appearance that the bodies have been abused after being mortal This indeed, speaks much for the "barbarous volunteers of the United States of the North, as the Mexicans style us Among the hundreds of dead whom I saw there, I was struck touched by the appearance of the corpse of a Mexican boy, who we agreed should think could not have exceeded 15 years A bullet had struck him all through the breast and must have expired almost instantaneously He was lying on his back, his face slightly inclined to one side and, although cold yet beaming with a bright and sunny smile, which eloquently told the spectator that the Bad fellow with his face to his country's foe

Saltillo is one vast hospital Besides our own wounded, (our five hundred in numbers) General Taylor has collected all the wounded Mexicans who were left by their army, and put them in hospital It is most disgusting to visit one of these places All of them (the Mexicans) are badly wounded for those that were slightly wounded went off They are dying every hour in the city

Gen Taylor.

The Wisconsin Herald gives some illustrations of Gen Taylor who was stationed at Prairie du Chien, as Colonel of the 1st regiment of infantry, from 1832 1836 These illustrations show him to be bold and direct in his movements, marching directly up to his object with a circumlocution or evasion, a close observer of men and things and knowing no a little about horses and road making In early life Taylor was an Indian fighter He had commission at the last war After the war he retired to his farm in Kentucky, and Mrs Street the wife of the well known Indian Agent Gen Street, frequently related her first sight of Gen Taylor—she was in a cornfield, following in the trace of old Chickamatas As might be supposed, Taylor is strict in his discipline, yet he was always popular among the soldiers He would always intercpose when any beardless lieutenant would attempt to show off his authority by maltreatment of a private"

☞ The Cincinnati Atlas says —

Mr Crittenden, (Gen Taylor's aid, who was passing through Cincinnati on his way home) was mortified to find that several incidents of the battle erroneously narrated, have been ascribed to his authorship, and especially the proclamation ascribed to Gen Taylor respecting the 2d Regiment of Kentucky Infantry — The newspaper accounts of that incident were substantially correct, having off the proclamation erroneously put in the mouth of the General In this instance, the impediments in the way of the Regiment in mounting the steeps of the ravine, gave to their motions the appearance of a stand upon and waver ing, and under such apprehension the General did remark, three times,—"Let my boys do, but when he saw them regain firm ground, and move on shoulder to shoulder, like well trained veterans, and deliver their fire in the ranks of the enemy, he rose in his stirrups exclaiming in a tone of exultation—"Hurrah for old Kentucky"

Catholic Mission in Oregon.

We learn from the *Melanges Religieux*, that the Bishop of Walla Walla left Montreal on Tuesday morning last for his Diocese in the Oregon Territory He is accompanied by several Clergymen—his two priests who will instruct the young girls in religion and in the habits of industry—two mechanics to assist him in the erection of a church and a servant man Several Clergymen of the order of Oblates in France, will join him in the United States

[Montreal Pilot, April 2

Men of mean qualities show but little favor to great virtues; a lofty wisdom offends an ordinary reason

☞ The Washington correspondent of the Baltimore Sun, writes—

We have now some most extraordinary and interesting intelligence from the South, but not exactly from the seat of war It is from the chief theatre of political war however and to the Presidential campaign for 1848 it relates — There is a letter in the city from South Carolina, which states that Mr Calhoun has written a letter to his friends on the subject of his being a candidate for the next Presidency, that in this letter he states, that under no circumstances will he consent to be a candidate for that office and further, that he requests and urges his friends to unite on Major General Zachary Taylor as their candidate for the Presidency

The New Orleans Taylor meeting was evidently intended to have a political bearing The prominent Whigs who participated in it—Messrs Wm Cost Johnson, Caleb Cushing, Balie Peyton and others—are well known to be in favor of General Taylor as a candidate for the Presidency The Democrats whose names are mentioned—Judge Henderson of Tenn, Ovid Johnson of Pa, and others—are also for the hero of Buena Vista It looks as if General Taylor might be taken up by large and overwhelming sections of both the existing parties

Later from the City of Mexico.

State of the Revolution there---Another American Victory---the FALL of GUADALUPE---Santa Anna's progress to the Capital---Mexican Reports of their Battles, &c. &c.

By the way of Vera Cruz and Tampico we have received a file of papers from the city of Mexico to the 17th of March, our previous dates hence were down to the 27th of February

The papers are occupied with the miserable detail of the two factions in the city of Mexico, one under Gen Gomez Farias, the Vice President, the other under Gen Henry Barring n Much blood has been shed but without any decisive effect Both parties were obstinate in their purpose—the one of retaining power the other of regaining it

Accounts were sent off speedily to Santa Anna with details of the revolutionary attempt, and he left back from the North to contribute to fend off in their violence, and a kind of hollow truce was observed before the 17th of March Further mention is made of the business below we wish here to record another victory of the American arms

El Republicano of the 15th March announces that the American arms have taken possession of Guadalupe, that the city of Guadalupe the capital of the State, has fallen The small forces which defended it, says the Republicano, were routed The same number of the paper, and the number of the 17th contains the Mexican government denies and publishes the details of the fighting, declaring that Mexican courage is not to be cast down by such a reverse

The Republicano of the 17th of March refers to a letter from Indianola in New Mexico (Texas) to the number of 3000 invaders against the American, and joined the pueblos previously in insurrection

Santa Anna held a council of war on the 2d February at Agua Nueva, and they unanimously advised a retreat to San Luis. Santa Anna was of the same opinion, and ordered the retreat accordingly

Santa Anna was at Cedros when he heard of the revolutionary attempt in the city of Mexico He wrote him on the 3d March advising him to suppress the attempt and then proceed to Mexico He wrote them on the 6th ult to the Secretary of War announcing the whole transaction, and put down the revolution at the entrance of Santa Anna at San Luis Potosi on the 8th ult was a trifling one All classes went out to meet him two or three miles on the road At night he was serenaded and the town illuminated

The following day he wrote dispatches to the Secretary of War announcing the total rout of the army composed of 4000 men, with their artillery and flags these were on the march San Luis and they were to be followed by the three Indians *to end of the Supreme power of the autocratic authority at Mexico*

This news would lead one to suppose the closing that intended to put down the opposition to Santa Anna's administration by the dangerous and unqualified terms the attempt at a revolution at such a time

From Mexico.

The "Sun" has papers from the city of Mexico to the 9th of March, four days later than the previous advices We copy the following:—

"Accurate intelligence had been received from Vera Cruz of the numbers of the American expedition they arriving at that port — These accounts produced a great excitement in the capital, but had no apparent influence upon the revolutionists They still pursue their sanguinary and fratricidal warfare the streets of the capital We send no proclamations to any of the journals before us All we know of the contents of the proclamation which surrounds them, and they evidently give way to the worst feelings of evil, but no one has the courage to propose an honorable peace They say the nationality is doomed to destruction and their country to Vandalism and therefore all means of peace are delusive

New York Charter Election.

The good news is confirmed The city of New York is redeemed The Whigs have elected their Mayor and Aldermen House Commissioner, and a majority in both branches of the Council The Locos have about one-third of each branch

☞ The Charter election in Brooklyn has gone decisively in favor of the Whigs

☞ Commodore Perry has laid in a claim for the captured property as a prize to the Navy — The army is not entitled to prize money

BAILEY'S
SARSAPARILLA!
NO REMEDY ever offered to the public has acquired such an extended celebrity throughout the world, as has Bailey's Sarsaparilla, and the proprietor has the satisfaction of the assurance that it has, in every instance wherein it has proved an effectual remedy in all the diseases for which it is recommended; therefore it is now recommended as a sure remedy in the following diseases.
As a Spring and Fall purifier of the blood, diseases of the bones, old ulcers, &c., all mercurial diseases and live complaints and scrofula, ulcerated sore throats, &c. &c., long-ever lingering, rheumatic affections, diseases of the skin, syphilitic affections, white swellings, dyspepsia, costiveness, &c. It reflects its cleansing blood purifying influence obstructions, which alone are the great cause of all diseases of the liver, lungs, &c.
Price 75 cts per bottle; $7,50 per doz.

The following certificate is from one of the most respectable citizens of North Kingston, in Rhode Island:
North Kingston March 3, 1846.
Dr. Wm Bailey—Dear Sir.—I have at various times considered of my great indebtedness to you, having been, as I well know, through your instrumentality restored to a perfect state of health, and I have reasons for ever to remember your valuable extract of Sarsaparilla, through the use of which I have been cured of a severe disease upon the liver, and a general torpid state of the whole system, and dyspepsia. I have from time to time tried various remedies, without any visible good effects; now, I am happy to say that your Sarsaparilla has cured me. I am happy to hear that you are as actively engaged as ever in the sale of your valuable medicines,—perhaps I should say blessings—it would be more appropriate, for surely no one has done more to alleviate the ills that flesh is heir to than yourself. If it were possible for bodily infirmities to disappear from the face of the earth, I should deem your Sarsaparilla a panacea or every complaint. But one thing I am confident, that the time will come when your name will be breathed forth in accents of gratitude from every habitable, hamlet and city throughout our country, when there will be a general thanksgiving for the benefits derived from your valuable extract of Sarsaparilla.
I have within one week heard a celebrated Elder of our town, proclaiming, in terms of the highest commendation, the extraordinary virtues of your Sarsaparilla. He had himself known it to cure people of his acquaintance, who had been pronounced incurable by physicians. I am, my dear sir, Respectfully yours,

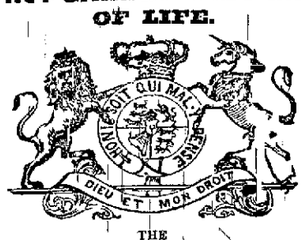
COSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.



THE GREAT ENGLISH REMEDY

For Colds Coughs, Asthma, and other Diseases of the CHEST and LUNGS

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pulmonary Diseases, still stands unrivalled and unapproached as the most elegant, agreeable, and effectual cure of these formidable complaints now known to the civilized world.

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country as the great and

ONLY PLEASABLE REMEDY

in the worst cases of Pulmonary disease, and the best and strongest reliance of all the slight forms of colds, coughs and inflammation that can possibly be used.

SPITTING OF BLOOD! This painful symptom of approaching consumption is arrested speedily, the cause removed by the use of Buchan's Hungarian Balsam, which heals the affected membrane, unless the important vessel ulcerated, and restores those vital organs, the lungs to sound and healthy condition.

REMEMBER THAT Spitting of Blood stands various from a trifling to a tuberculous disease, and if not checked, at the outset will account of later date, the undeath. A person who raises blood once, will raise blood again, unless a proper curative is needed speedily obtained.

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the lungs or the Membrane called the Pleura, or from Scrofulous affection of the air passages. In either case it is a very dangerous indication of disease. It perverts full and free breathing and wears away the organs, strength of the system. The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy discovered by Dr Buchan which not only heals the affected lungs, but entirely removes the cause, by the use of the most powerful ingredients, and perfectly harmless in all its effects.

LIVER COMPLAINT In cases of Consumption the Liver always or nearly or less affected, as also the Spleen, Heart, and all the intestines. On dissecting Consumptive patients, Tubercles are often found in these organs, particularly upon the Liver, which also demonstrates only and invariably the Tubercles of the Lungs, in such diseases of the Liver, expect Hydatids of an ulcerous nature to direct and powerful *Simple Jaundice of the Liver, unattended by Consumption is speedily cured by the same.*

WINTER COUGH The hard, dry hacking winter cough which afflicts old people, and invalids in a low state of health, is happily affected by the *Hungarian Balsam*

It warms, moistens and stimulates the whole breath ... expectoration removed all morbid mucous, and other foul matter, purifies and invigorates the blood, improves the secretions of the Liver, Spleen, and other large glands, and thus tightens the nerves, and imparts new life to the weak and exhausted system.

BRONCHITIS, Emphysis Difficulty of Breathing, Harsh Cough, Scanty expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and speedily cured by the use of the admirable remedy invented by *Dr Buchan*

This is a very painful wearing and injurious complaint and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary Consumption. Be warned in time, ye afflicted! and employ this valuable remedy

TUBERCLES IN THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease, that he pledges (as he has frequently stated,) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more important. He boldly declares that it will cure Tuberculous disease and confidently submits a trial in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passages, pulmonary irritation and irritate the membranes and provoke a cough. Coughing is an attempt to throw off this matter and expectoration gives great relief, inability to expectorate is the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It does clear the morbid and diseased matter in the air passages, changes it from a thick, glutinous substance to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, if its excellent qualities are considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, this is a better remedy than the Hungarian Balsam. It is painful and destructive affection which it relieves almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a *Shrinking of one's self*" The Hungarian Balsam, by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion!*

Before its delightful influence, all chills, fever, nightsweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength emaciation and decline, disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion, but lemon truth, fact, sustained by incontestible proof from all parts of the country

BE WISE TODAY Delay in any case of Consumption tends to a fatal termination which has caused thousands to exclaim, "Oh! why did I not use Buchan's Hungarian Balsam, when it would have saved my life, but I thought it was only a common cough, and it has carried me to the grave!" Do not let this be your case, but if you have any symptoms above described, be advised in time

From the "Western Star," a religious periodical, published at Jacksonville, Illinois

"DOWNS' VEGETABLE BALSAMIC ELIXIR—We are in the habit of puffing medicines in our columns, but having used the above medicine in our family with gratifying success, and being persuaded from all we can learn concerning it, that it is an excellent medicine for Coughs, Colds, Consumptions, Whooping Cough, Asthma and diseases of the Chest and Lungs, we do not hesitate to give it a cordial notice

Elder Downs, an acquaintance of ours, was himself an invalid for a long time, and was thought to be fast going to the consumption, a disease hereditary in his family. This remedy was the means of restoring his health, and multitudes have testified to its salutary effects upon the sick and families"

From the Missisco (Canada) Pos of April 6, 1846.

REV N B DOWNS' VEGETABLE BALSAMIC ELIXIR, for all diseases of the Chest and Lungs.—From the abundant testimonials of those who have made use of this preparation we can recommend it to the public with the most confidence in its usefulness and efficacy. The great danger, also, of neglecting complaints near to the chest and lungs should persuade every person subject to such complaints to possess themselves of this valuable remedy"

Another New Thing in Penobscot. The Trojan Pioneer Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection and are now prepared to furnish the public with the very best article ever invented. This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove; at the Fair of the American Institute in the City of New York a Silver Medal was awarded; at the great State Fair at Poughkeepsie, N Y 1844, there was the greatest competition ever known, the first premium was awarded to it and lastly at the Exhibition and Fair in Boston a Silver Medal was awarded to it. This celebrated Stove stands unrivalled in Boston New York and other places where it is in extensive use, 1800 of them were retailed by one establishment in Boston the last year for all cooking and heating purposes and far surpasses any other Cooking Apparatus that can be produced. The oven is extremely large being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time. In addition to the advantages it has over other Stoves for boiling, baking washing frying beath grains, &c, it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that ever been in use, the steam (from all the cooking) being carried off effectually. This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the setting or dining room—and the other part in the back kitchen for Boiling or Washing and in the fall of the year the two parts may be connected together as is represented above. In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a most elegant assortment of Cook Stoves, Ranges, Hot Air Furnaces and Fixtures, Tin Ware, Sheet Lead, Pumps, Lead Pipe, Tire Frames, &c
